I am very happy to know that All Odisha Union Bank Employees Association is bringing out a website of their own with fresh updated version about their Association along with Banks day to day news, which will be launched on 12th August 2018.

In the changing scenario of the present day, world professional in the field of various services provided to the masses is gaining ground in the choice of persons of satisfaction of their requirements, present and future. In this context updating the website containing full information about various policy of the Bank as well as services provided by Associations to the members.

I appreciate the honest sincere endeavour of the members of AOUBEA to have their own website. The task is no doubt difficult but would be definitely rewarding.
